

**Thetha Kakhulu is Xhosa for 'talks very much'.  
These beautiful bowls are beaded by our ladies who sit in groups and  
chat while they work. With the happy sounds of their chatter,  
and the cheerful colours of the bowls, the name Thetha Kakhulu seemed  
fitting for this range.**

These bowls can be ordered in your choice of colour: Plain beaded, random speckled bead mix, or random bright stripes. Just let us know your preference when you order. (Some examples below)
